Education

Rouen University
Bachelor's Degree of Computer Science
2020 - 2024

Zone01

Application Developer and Designer
in progress

Soft Skills

- Communication
- Problem-Solving
- Adaptability
- Team Collaboration
- Time Management & Autonomy
- Creativity
- Curiosity
- Leadership

Projects

Turing machine

Development of a Java application simulating a Turing machine, manipulable via a graphical user interface.

Forum

A web-based community forum that allows users to post and interact with others. Developed using Go for the backend, HTML and CSS for the frontend, and SQLite as the database.

Compilation

Development of a compiler for simple algorithms in LaTeX.

Stack: C, Assembly, Flex, Bison

Graph theory

Development of five algorithms to find the shortest path in a graph, along with an application to test and compare these algorithms.

Stack: Python

C Project

Development of an executable program to extract, sort, and display common words from various text files.

System Project

Development of client/server programs where the client sends commands to the server, which executes them on dedicated threads and returns the results.

Stack: C

Experience

Full Stack Web Developer

April 2023 - July 2023

Développement Informatique International

Transformation of the company's application into a modern web application using Java Spring Boot (RESTful API) and Angular. Creation of a relational MySQL database and usage of the company's AS400 database. Writing of technical documentation.

Skills

Backend Development

- Languages: Java, C, Python, PHP, Go, Node.js
- Frameworks: Spring Boot
- Security & Authentication: JWT, OAuth
- Performance & Optimization: Multithreading

Testing & Debugging

- Unit Testing: JUnit, Jest, PyTest, Mocha
- Integration: Selenium
- API Testing: Postman
- Debugging & Monitoring: Prometheus

Deployment & DevOps

- Web & App Servers: Apache, Nginx
- Containerization: Docker, Kubernetes
- Cloud & Hosting: Netlify, AWS, Google Cloud

API Development

- RESTful APIs
- GraphQL
- WebSockets

Frontend Development

- Languages: HTML, CSS, JavaScript, TypeScript
- Frameworks: Angular, React
- UI/UX & Styling: Tailwind CSS, Bootstrap
- Build Tools & Package Managers: npm

Databases

- Relational Databases: MySQL, SQLite
- NoSQL Databases: Firebase, MongoDB
- ORM & Query Tools: Hibernate, JPA

Project Management

- Agile Methodologies: Scrum, Kanban (GitHub Projects, Trello)
- Documentation: Markdown

Version Control

- Git (GitHub, GitLab, Bitbucket)
- CI/CD: GitHub Actions, GitLab CI/CD
